

## Industrobot Rolls Into Fourchon

On Tuesday November 9th at 10:00a.m., our own H3 Industrobot was inserted into a 1000 bbl diesel tank. This marked the 2nd time one of our Industrobots entered a tank outside of our training facility. We quickly and successfully removed 5"-6" of product from the tank for the Greater Lafourche Port Commission. Congratulations to Chris McNeese, Danny Fontenot, and the whole OCS team for getting one step closer to our ultimate goal of automated tank cleaning!

## BP Recognizes OCS Employees

Peter Klumpp was recognized for assisting the PIC and going above and beyond his normal job scope. Offshore Cleaning Systems is proud to once again have employees willing to go the extra mile for customer satisfaction. It is this kind of added commitment that makes OCS successful and the industry leader in customer satisfaction. Congratulations Peter Klumpp and the rest of the OCS crew (T-Boy Monceaux, Brady Venable, Donovan Monceaux) for the BP recognition of a job well done!

## OCS Venice Welcomes Maritech

OCS Venice is proud to announce that on December 1st Maritech Resources Inc. moved onto our yard. Maritech has been a solid OCS customer for years and complements OCS' hard work by moving onto the Venice facility. Venice will be helping Maritech handle 3 manned platforms and 25 unmanned platforms in both the West Delta Area and the Main Pass. Congratulations to Ken Hotard and the Venice staff for the great work!
